ÆGYPTUS.

A horizontal bar chart representing the distribution of 100 students. The bar is divided into five segments with the following patterns and values: 10 (dots), 20 (vertical lines), 40 (horizontal lines), 10 (diagonal lines), and 10 (solid black fill). The values 10, 20, 40, and 100 are marked below the bar.

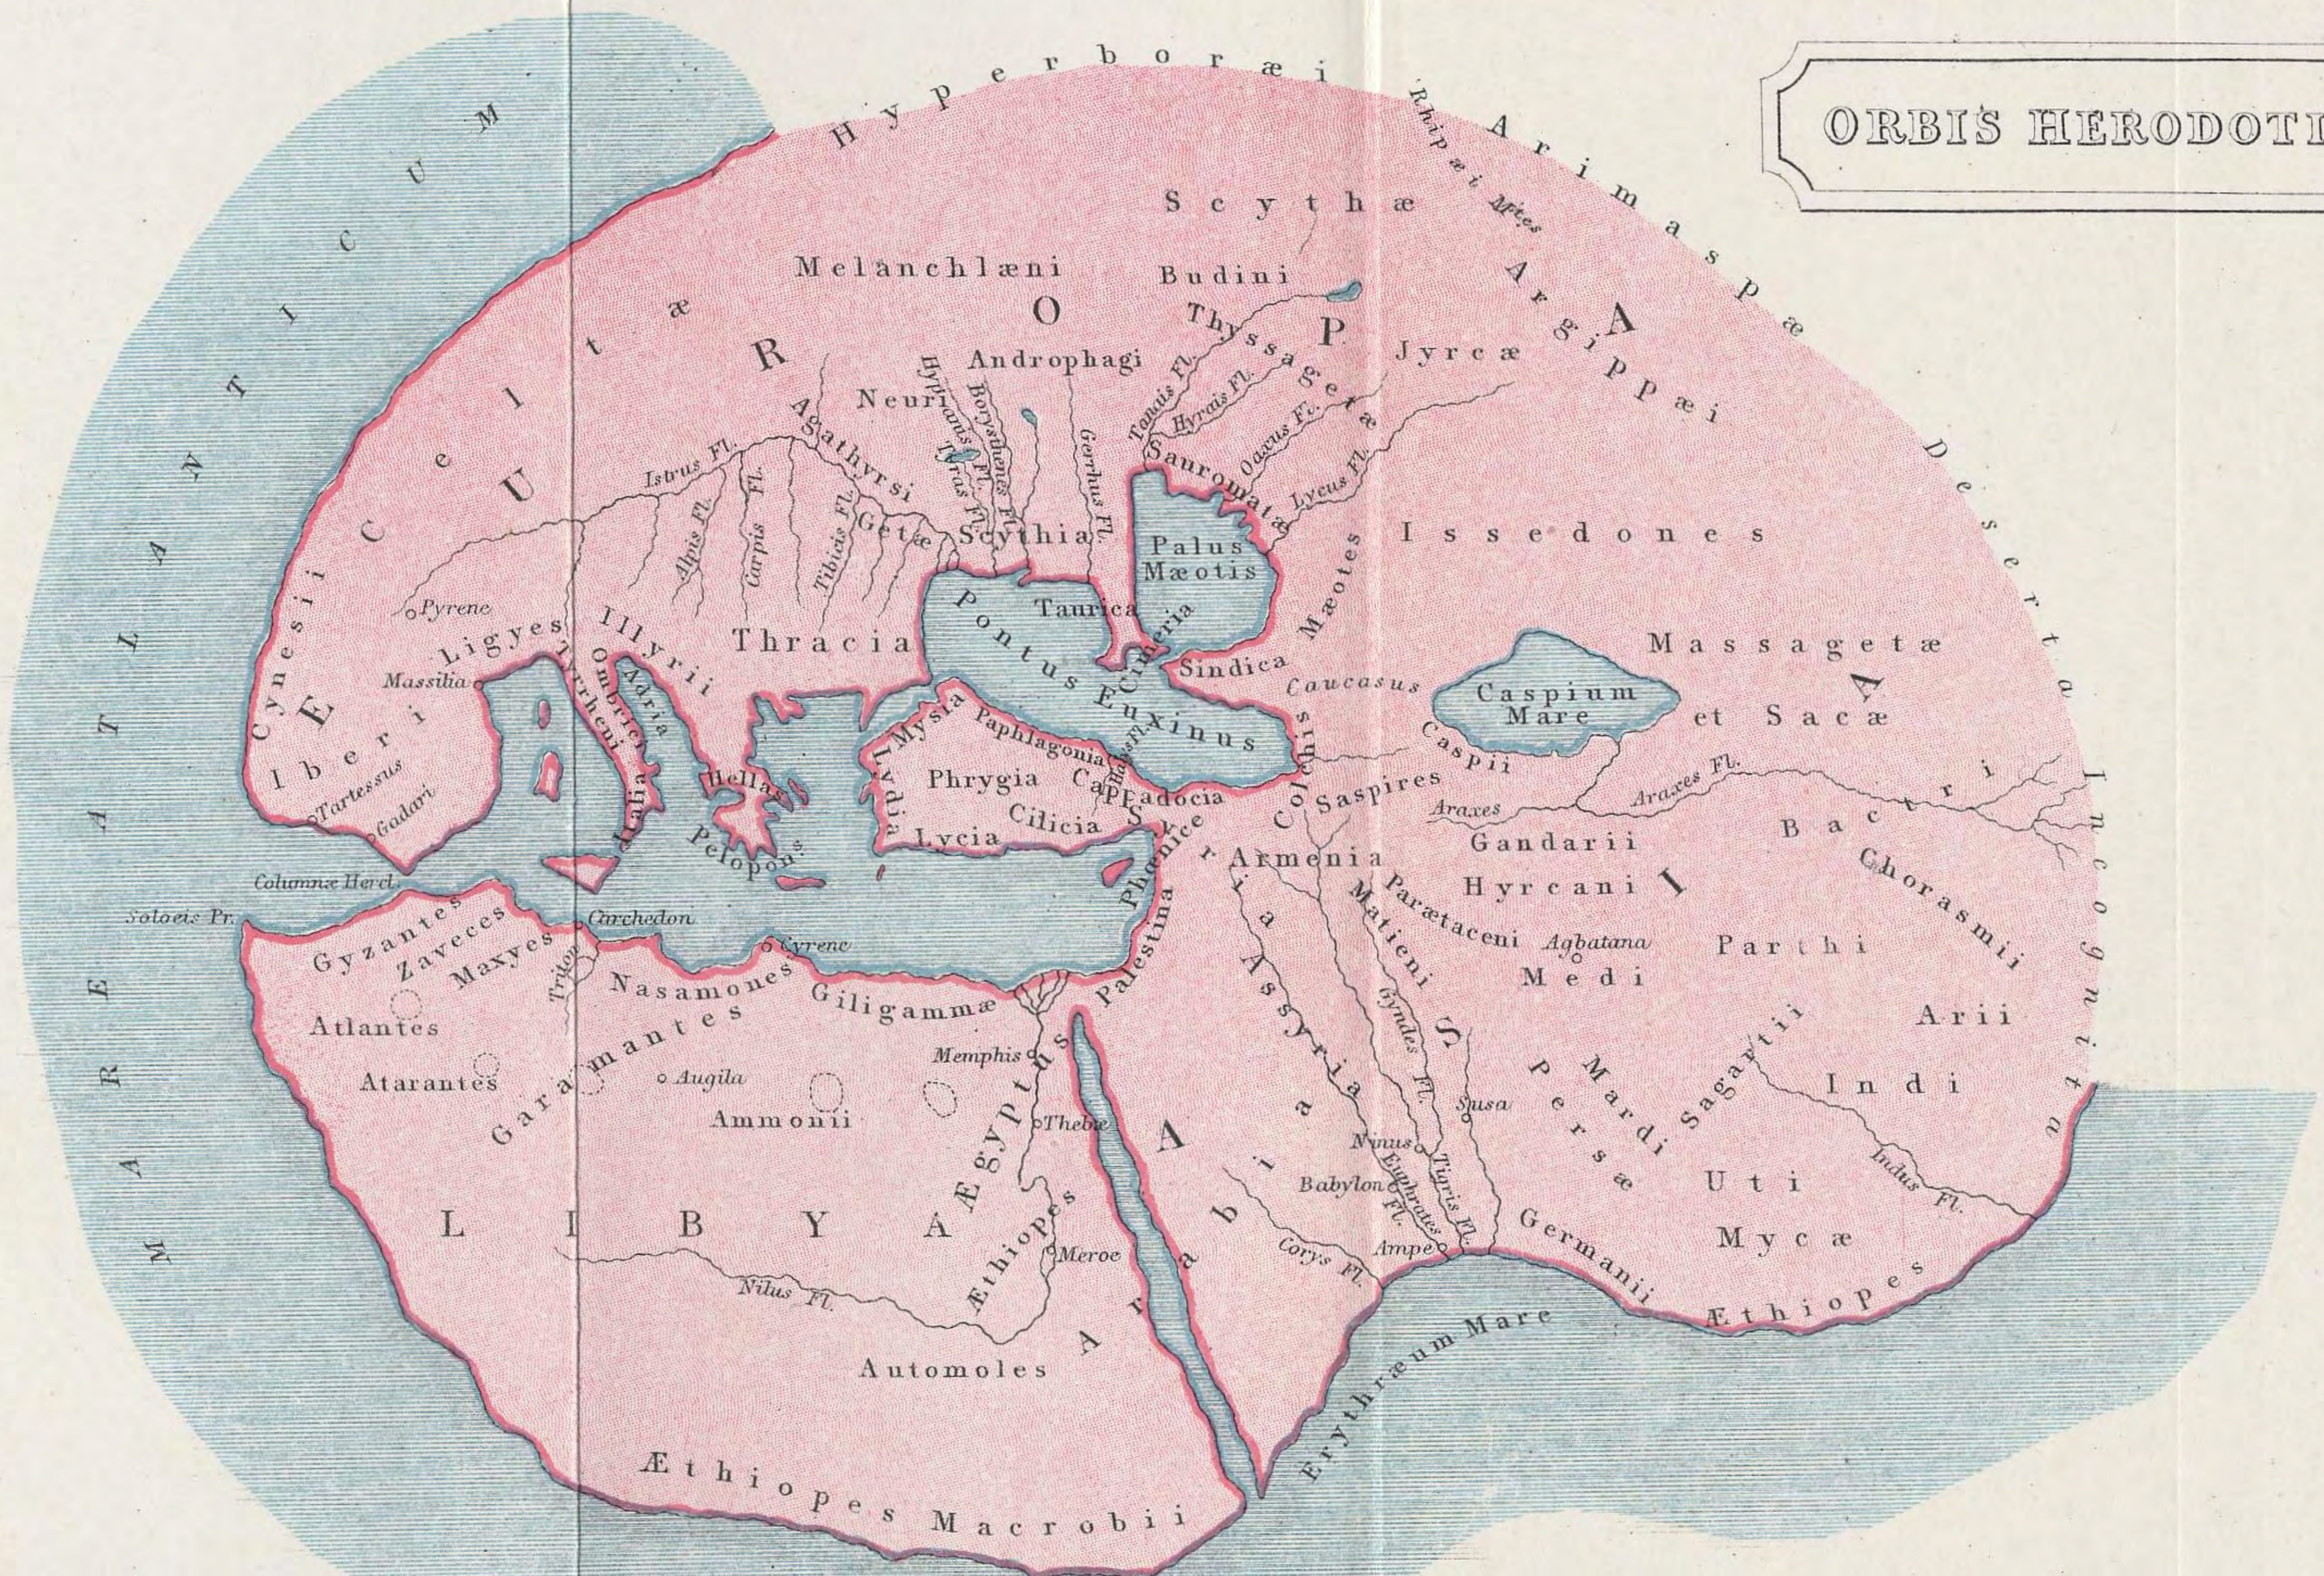

A horizontal bar chart representing the distribution of the number of children per family. The x-axis is marked with values 100, 200, 400, and 1200. The bar is divided into segments with different patterns: dots, vertical lines, horizontal lines, and a cross-hatch pattern.

SYNOPSIS OF LANGUAGES

ACCORDING TO THEIR INTERNAL & EXTERNAL RELATIONSHIP

- I. Indo. Slavic. German Class of Languages.
- | | | | | | |
|----------------------------------|----------------|------------|--------------|---------------------------------------|------------|
| Sanscrit | Zend | Lithuanian | Old Russian | Old Gothic | Latin |
| Bengalee | Phelvi | Polish | Scandinavian | Modern Greek | Romance |
| Malabar, this side of the Ganges | Modern Persian | Bohemian | Norwegian | Swedish | Italian |
| | | Wendish | Danish | High & Low German | French |
| | | Slavakish | Dutch | Wallachian, much mingled with Slavian | Spanish |
| | | Servian | | | Portuguese |
| | | Bulgarian | | | |
| | | Kroatian | | | |
- II. Celtic Class of Languages
Gaelic Iberian Irish Welsh Breton
- III. Semitic Class of Languages
Hebrew Aramaic Arabic Ethiopic Chaldaic Syriac
- IV. Tatar Class of Languages
Tangus Finish Magyar Turkish Mongholic Mandschou Lappish Estonian Lettish
- V. Malayan Class of Languages
According to Wm. von Humbolt, spread over the whole Asiatic Archipelago from the Southern point of Further India, with the exception of Japan.
- Coptic Class of Languages
Sahidic Rashmudian
- VI. Single Syllable Class of Languages
Chinese Anamish Siamese Laos Birmese
- Isolated Languages
In Europe: Basque, Albanian
In Asia: Kaukasian, Japanese, Tibesian, Armenian, Georgian, etc.

HUNS 376
advance from inner Asia over the Volga, and cause by their invasion of the Alans & Goths, the Great Migration after 431 and leads them to Chalons 451, and against Rome 452, the kingdom ends with his death 454.

ALANS
driven before the Huns, enter Pannonia and unite themselves to Radagaisus.

GOths
already powerful 215 in the reign of Caracalla occupy Dacia 275 and are divided somewhat later into Visigoths and Ostrogoths, West and East Goths.

OSTROGOTHs
powerful under Hermanric 350 overthrown by the Huns 376 pass into Maesia and Asia Minor.

VISIGOTHs
powerful under Athanarick retreat before the Huns 376 under Alaric and Hilgeric.

CEPIDGE 460-567
the Kingdom founded by Andarick overthrown by Kunimund the Lombard.

FRANKs, after 437
migrate under Clodion and found, under Clovis the existing Kingdom 481-511.

VISIGOTHs 422-507
under Ataulph, pass into Spain, subdued by Clovis.

SUEVI 409-585
migrate under Hermanric under Andeca, conquered by Leovigild the Visigoth.

VISIGOTHs 419-711
settle under Ataulph under Roderick, subdued by Arabians.

ARABIANS 711-1492
land under Tarik, subdue almost the whole country, found under Abderrahman the Omayyad, the Caliphate of Cordova finally expelled 1492.

VANDALS, 409-429
pass in a short time under Genseric into Africa, the name of Andalusia derived from them.

VANDALS, 439-534
found under Genseric a formidable kingdom, plunder Rome and are finally under Gilimer annihilated by Belisarius.

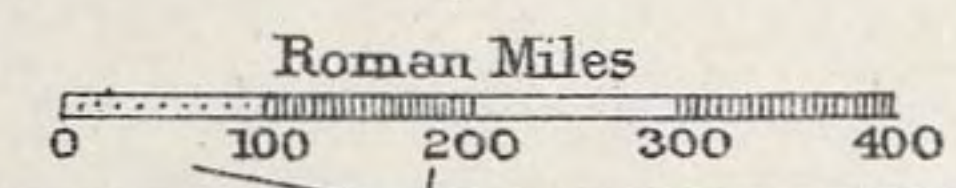

LOMBARDS 568-774
settle under Alboin subdue the Ostrogoths under Desiderius, conquered by Charlemagne.

OSTROGOTHs, 455-553
found a powerful Kingdom in Italy under Tejas, are subdued by Narses.

HIONG NU
The Hiong Nu, according to Desguignes & Gibbon, after the loss of their Kingdom in China B.C. 207-39 A.D. move in two divisions as the Enthalites and Haxathalites, south-west over the Oxus, as Huns, north-west over the Volga.

ARABIANS
under Mohammed 632 conquer the World, Abubekr 632-34, Omar 644, Othman 655, Ali 660.
